PROFESSIONAL SUMMARY

Full-stack developer and CSE graduate (CGPA 3.64/4.00) with experience delivering React.js and Laravel applications, REST API integrations, e-commerce workflows, and VPS deployments. Skilled in troubleshooting, computer hardware and networking, and mentoring developers.

EDUCATION

BSc in Computer Science & Engineering

2021 – 2026

Premier University, Chittagong, Bangladesh | CGPA: 3.64/4.00

PROFESSIONAL EXPERIENCE

Software Developer Trainee

Dec 2025 – Oct 2026

Premier University, Chittagong, Bangladesh

- Developed and maintained responsive React.js components and integrated REST APIs for data-driven features.
- Improved UI usability, fixed defects, and collaborated with developers to implement and refine application workflows.

Full Stack Developer – IFJONA E-commerce Platform

Jan 2026 – Jun 2026

IFJONA LLC, Saint Albans, NY, USA (Remote)

live link: www.iffona.com

- Built and deployed a single-vendor e-commerce platform with product management, cart, wishlist, checkout, delivery tracking, and multi-country/multi-currency support.
- Developed an admin panel and integrated Stripe, PayPal, Cash on Delivery, automated emails, and real-time chat.
- Managed VPS deployment, production support, issue resolution, enhancements, and server maintenance.
- Technologies: React.js, Laravel, MySQL, Laravel Reverb, WebSocket, Stripe, PayPal, VPS.

ACHIEVEMENTS & AWARDS

- ICPC Dhaka Regional Onsite 2024 – 213/307; ICPC Dhaka Regional Preliminary 2023 – 835/2400+.
- DUET IUPC 2025 – 64th/170; IIUC IUPC 2025 – 42nd; PUC IUPC 2024 – 48th; BU DPC 2024 – 6th Individual.
- HackerRank Frontend Developer (React) certified; GeeksforGeeks 160 Days Problem Solving certified.
- Solved 1,000+ DSA problems across Codeforces (Pupil, top 35%) and CodeChef (2★, top 8.3%).

SELECTED PROJECT

Integrated Management, POS & Multi-Vendor Commerce System

In Progress

GitHub: github.com/ramim2219/JNRmart

- Developing a unified full-stack platform combining employee management, point-of-sale (POS), multi-vendor e-commerce, and role-based access control (RBAC).
- Implementing warehouse/inventory tracking, barcode workflows, requisition approvals, product pricing, online/offline sales, and returns.
- Technologies: React.js, Laravel, PHP, MySQL, REST APIs.

KEY SKILLS

Hardware & Networking: Desktop/laptop troubleshooting, routers & switches, LAN/Wi-Fi networking, OS installation and software setup

IT Infrastructure: VPS/server deployment & administration, production support, technical documentation

Software Development: React.js, Laravel, PHP, JavaScript, Python, C, C++

Web & Database: HTML, CSS, Tailwind CSS, MySQL, REST APIs, WebSocket

Tools: Git, GitHub, VS Code, Stripe/PayPal integrations

Soft Skills: Communication, mentoring/training, problem-solving and collaboration

LEADERSHIP EXPERIENCE

Competitive Programming Trainer

Jul 2024 – Aug 2025

Premier University Computer Club

- Guided and mentored students in algorithms, data structures, and competitive programming.
